# The company

## About us

La Giuseppe Di Natale S.p.A. nasce nel 1924 come piccola impresa a conduzione familiare specializzata nella stampa e nella rilegatura di rubriche tascabili. Più che la storia di un'azienda, la nostra è la storia di una famiglia che si è "allargata" nel corso degli ultimi novant'anni, inseguendo una passione portata avanti con dedizione da ben quattro generazioni. La passione per la stampa, per l'odore della carta, la passione per le lavorazioni artigianali che accompagna e sostiene ogni nostra creazione.

L'azienda conta oggi ben 80 dipendenti ed ha acquisito un respiro internazionale, vantando partnership con clienti di rilievo nel settore B2B e Stationery. La gamma prodotti si è arricchita notevolmente e spazia oggi dal notes alle agende personalizzate, includendo anche una vasta selezione di accessori per l'ufficio e per il tempo libero, tutto disegnato e prodotto interamente in Italia nei nostri stabilimenti ad Arzano (Napoli).

*The history of Giuseppe Di Natale S.p.A. dates back to 1924 when it was founded by current owner's great great grandfather. Born as a small family-run business specialized in printing and manufacturing pocket address books, the company has been evolving over the last 90 years, now counting 80 employees and a product range far more diversified and complete. Calendars, notebooks, diaries and a wide choice of desk, travel and pocket accessories are entirely designed and produced in our warehouse in Naples, southern Italy, with the same devotion to work and passion for high quality hand crafted products that inspired Di Natale family since the beginning.*

## Vision/Mission

La nostra vision? Proporre soluzioni innovative e dal design immediatamente riconoscibile, che differenzino il prodotto dinatalestyle dalle proposte dei competitors per qualità, stile, funzionalità ed ecosostenibilità.

La nostra mission quotidiana è la cura di ogni singolo progetto, dalla fase di elaborazione grafica alla realizzazione fisica dell'oggetto, prestando la massima attenzione ad ogni dettaglio che possa accrescere la qualità ed il valore percepito del prodotto, ma sempre nel rispetto dell'ambiente.

Sosteniamo i nostri clienti a 360° nella realizzazione delle loro idee, offrendo un supporto tempestivo, flessibile, sempre customer-oriented, per dare forma e sostanza ai loro progetti.

*Our vision is to make dinatalestyle products one-of-a-kind within the industry, different from competition and immediately recognizable for design, innovation, functionality and sustainability. That is why our everyday mission is taking absolute care of every single project, from design absolute care of every single project, from design stage to production, with every possible effort to give best quality and high valued products to our customers, always keeping a strict focus on sustainable production requirements. We aim at supporting our customers with a 360° quick and flexible service, to help them turn their ideas into concrete products speaking for their brands.*

## Sostenibilità

Ci impegniamo quotidianamente per contenere l'impatto ambientale delle nostre lavorazioni, riducendo al massimo gli sprechi ed investendo sempre più nel riutilizzo di materie prime riciclate. Cuoio rigenerato, cartoncini grezzi, carte contenenti scarti da lavorazioni agro-industriali sono solo alcune delle materie prime che caratterizzano le nostre collezioni realizzate esclusivamente con carta FSC.

## Sustainability

We take any possible action to reduce the environmental impact of our productions. We commit everyday to waste reduction and re-use of wasted or recycled materials, thus contributing to reduce Co2 emissions. Regenerated leather derived from 100% recycled leather fibers, recycled natural cardboards containing up to 30% post-consumer recycled waste are just a few examples of the raw materials used for our covers, while all inner papers used are FSC certified.

## Versatilità

Siamo sempre pronti a proporre soluzioni innovative per materiali, tecniche di stampa, personalizzazioni. Studiamo e realizziamo prodotti su misura. Per questo amiamo definirci dei "sarti": cuciamo il prodotto sulle esigenze di ciascun cliente.

## Flexibility

We love calling ourselves "tailors" rather than manufacturers. We are specialized in tailor-made productions designed and produced according to every customer's needs. Our customer-oriented flexible approach will help you find the right solution in terms of materials, printing techniques and customization.

## Artigianalità

Le nostre lavorazioni prevedono ancora molte fasi manuali, rendendo ogni prodotto unico in quanto "fatto a mano". L'unicità è un valore raro da preservare nell'era delle produzioni in serie. Rende il prodotto esclusivo, accrescendone il valore percepito.

## Craftsmanship

Our production still relies on manual labor, which makes every product "unique" being handmade. Uniqueness and craftsmanship are important values becoming rarer and more valued in the mass production era we are living. Therefore we keep them jealously to offer exclusive products to our customers.

## Qualità

Fornire prodotti di qualità, che durino nel tempo e che rispecchino le aspettative del cliente. Questo è un valore fondamentale che guida tutte le nostre produzioni.

## High Quality

We aim at offering high quality, sustainable and durable products meeting each customer's expectations.

### Cuoio rigenerato

Protagonista delle collezioni Retime è il cuoio rigenerato. È un materiale di recupero ottenuto dal 100% di fibre di cuoio riciclato. Una materia prima estremamente flessibile, morbida, vellutata al tatto, disponibile in una vasta selezione di colori e grane.

### Regenerated leather

*Regenerated leather used in our Retime collections is an eco-friendly material derived from 100% recycled leather fibers. It is extremely flexible and soft, with a very nice feel, available in a wide choice of colours and textures.*

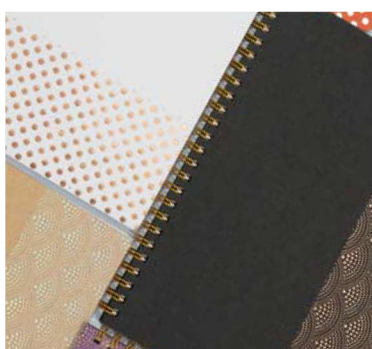

### Le carte che raccontano una storia

Carte e cartoncini ricavati da scarti di lavorazioni industriali: lavorazioni del caffè, mandorle, nocciole, olive, kiwi, mais, agrumi, lavanda, ciliegie, lana, cotone, cuoio e tanto altro. Le carte sono certificate FSC, prodotte con 100% energia verde e senza OGM.

### Papers with a story to tell

*Papers and cardboards containing post-consumer recycled waste: by-products from coffee, almonds, hazelnuts, olives, kiwi, corn, citrus fruit, lavender, cherry, wool, cotton leather and much more. Besides, the papers are FSC certified, produced with 100% green energy and are GMO free.*

### Cartoncini riciclati e creativi

Carte e cartoncini 100% riciclati, dalla superficie ruvida e porosa al tatto. Disponibili in una vasta scelta di colorazioni, certificati FSC.

### Recycled and textured cardboards

*Papers and cardboards 100% recycled and FSC certified, available in a choice of vibrant colours. Their rough and irregular surfaces evoke the recycling process they derive from.*

### Materiale di rivestimento

Tele, carte texturizzate e cuoio rigenerato possono essere utilizzati come rivestimento per le copertine di notes ed agende, conferendo al prodotto un aspetto molto naturale ed originale, rispettando l'ambiente e consentendo quindi l'ecosostenibilità.

### Coating materials

*Cloth, textured papers and regenerated leather can be used as coating materials for the covers of our notebooks and diaries, giving the product a natural and mostly original look and always meeting sustainable production requirements for an environmentally friendly product range.*

### Interni in carta certificata FSC e 100% riciclata

Tutti i nostri prodotti sono realizzati in carta certificata FSC proveniente da foreste gestite rispettando rigorosi standard ambientali, sociali ed economici.

### Inner papers FSC certified and 100% recycled

*All our notebooks and diaries are printed on FSC certified papers, that is papers that have been sourced in an environmentally-friendly, socially responsible and economically viable manner.*

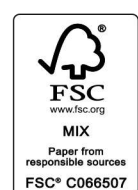

Le nostre collezioni nascono dal connubio di sostenibilità e design. La parola chiave è ricerca. Ricerca grafica, di forme e linee innovative e funzionali. Ricerca di materie prime originali e sempre più "green", per promuovere il riutilizzo di materiali di recupero, riducendo gli sprechi.

Our collections arise from the combination of sustainability and design and rely on a constant research for innovative, functional and sustainable solutions. We are always looking for new eco-friendly raw materials, to promote re-use of commonly wasted matter, thus reducing waste.

Nel segno del nostro impegno quotidiano per la sostenibilità abbiamo piantato i primi 600 alberi della **Dinatalestyle Forest**. Per ogni albero piantato, un respiro per il pianeta. E' questa la missione che ispira la nostra foresta. Grazie ad ogni albero piantato, infatti, contribuiamo ad assorbire CO2, migliorando la qualità dell'aria e favorendo la biodiversità. Fare parte della nostra foresta significa condividere un impegno concreto per la salvaguardia del pianeta.

Our daily commitment to sustainability has led us to plant the first 600 trees in **Dinatalestyle Forest**. Every planted tree makes the planet breathe. This is the mission inspiring our forest. Every planted tree makes air quality better by contributing to CO2 emissions reduction and biodiversity. Being part of our forest means to share a concrete commitment to environmental protection of the planet.

**Recommended by PSI**

**Bullet Journal Modimò** is an innovative and most useful tool to plan everyday activities, whether for business or leisure. Its flexible regenerated leather cover and its functional binding allow you to insert two inner journals (white, ivory, lines, travel, food, books, diary, week, my plan, colours) and replace them anytime, quickly and easily. Mix and match the inner journals as you wish to make your Bullet Journal Modimò® as unique as you are.

The regenerated leather cover is extremely flexible, handy and light to bring along.

The inner journals are refillable thanks to the elastic band applied to the spine. Replace them anytime you want, always keeping the same cover. Bullet Journal Modimò is an eco-friendly sustainable product.

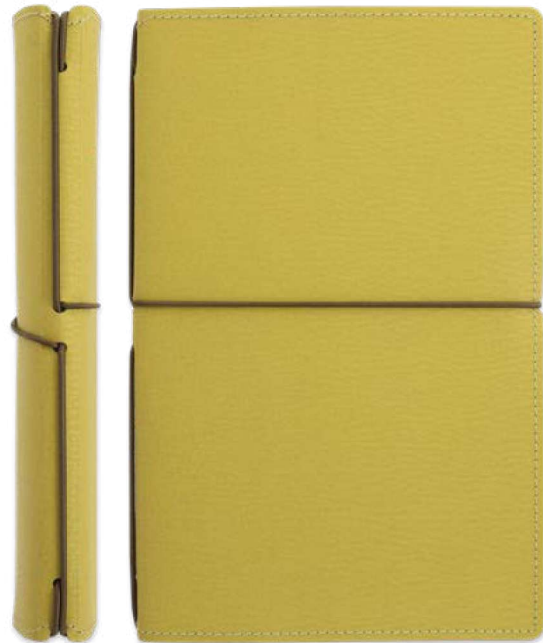

## Basic

Two available sizes:  
desk size 13 x 21 cm  
pocket size 10 x 15 cm.

## Top

Bullet Journal Modimò becomes even more elegant and refined thanks to the stitching along the cover edges and the useful inner pockets. Covers are made in soft regenerated leather deriving from 100% recycled leather fibers.
