

# WELCOME TO REGENERATIVE MARKETING.

CATALOGUE 2024

Certified

Corporation

PROMUOVERE

Our purpose  
is to expand  
vegetation.  
Marketing is  
our  
loudspeaker.

## Yes, marketing can be good for everyone.

With your marketing actions you can capture CO2,  
boost biodiversity and secure quality jobs. ¡Ask us how!

We design, produce and market corporate gifts from Barcelona. Our firm commitment to sustainability. We have a real and measurable positive impact. We use trees, plants, seeds and biodegradable materials as raw materials.

We put them in our creative cocktail pot and from it come ideas to make innovative products, customizable and at a fair price for everyone.

- We offer real sustainability. No greenwashing.
- We produce locally, differentiating ourselves from the competition.
- We provide quality employment and help people at risk of job exclusion.
- We work with entities that provide training and employment to people with different functionalities.

MORE INFO

[see more](#) ↗

Our raw material is plants. We don't emit CO2, we absorb it.

Our materials are abundant in the lithosphere or directly renewable.

We recycle all of our production leftovers to get to zero waste.

We contribute to biological abundance and the and renaturalization of our environment.

We create awareness and environmental education. That the environment is cared for and respected.

# Clients choose us because...

We are not perfect, but we do everything possible to make our customers happy.

**Very short production and delivery times.**

**We have no minimum order. Not maximum, either.**

**Personalized attention at every stage of the project.**

**Samples and control photos when you need them.**

**We make urgent orders.**

**We pack and ship safely and aesthetically.**  
(And, anonymous, if necessary).

## REVIEWS OF OUR CLIENTS

**5,0** Reviews from Google

**4,9** Reviews of Bodas.net

# Recognition

We're BCorp. That means that our way of doing things is aligned with our way of thinking. Our company meets the highest standards of social and environmental performance, accountability and transparency

Over the years, we have received various awards in terms of ecology and sustainability.

We have had an honorable mention at the Premi d'Ecodisseny 2019 (organized by the Generalitat de Catalunya) or Best Business Initiative 2017 of the Col·legi d'Ambientòlegs.

Formamos parte del GoCircularPass y de Barcelona+Sostenible para construir colectivamente una sociedad más responsable.

These distinctions recognize that our products and our value proposition are truly sustainable and not harmful to the environment.

## ¿WHAT CAN I CHOOSE?

### SEEDBOMBS

#### THE SEEDS

Select the seed mix of our pumps from:

**BEE WARRIORS:** mustard, melon, chicory, coriander and green aniseed, among others.

**BUTTERFLY SUNRISE:** marigold, clover, borage, poppy, thistle, flax and acanthus, among others.

**MEDITERRANEAN TASTE:** marjoram, caraway, fennel, chess, basil and sage, among others.

**GRAND SALAD:** greens, lettuce, horseradish, parsley, chives and spinach, among others.

#### SPECIFIC SEEDS

PLUS! Supplement +€

Selection of a specific species for pumps, from our seed inventory.

SEED INVENTORY

[See more ↗](#)

#### PLANTING INSTRUCTIONS

To germinate seeds, it is best to soak them in water for 30 seconds and then place them in the ground. There is no need to bury them. If you keep the soil moist, the first seeds will start to germinate, and these will help subsequent seeds to produce. Soon you will have a small orchard of plants that you can enjoy.

#### THE COLOUR

You can also choose the colour of the bombs

100% customisable colour within the CMYK colour circle.

¡Choose the color of the bombs!

#### THE PAPER

You can choose kraft or algae paper for the blister pack

! Not applicable to: **BOMB5, BOMB11 and BOMB14**

#### DESIGN INCLUDED

Customisation of the packaging and selection of these features is included in the price.

### NOTEBOOKS AND CALENDARS

#### THE PAPER

You can choose 100% seed paper or a mix of papers with algae paper.

! Only applicable to: **PAP12 and PAP24**

#### THE PRINTING

The printing is always in full colour within the CMYK colour circle.

#### NOMINAL TAXATION

PLUS! **Supplement +€**

Individualised nominal taxation option for the lectern.

#### PRE-ESTABLISHED SEEDS

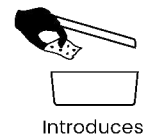

Our planting paper carries a mixture of chamomile, candle and greens seeds, so it can be planted anywhere and at any time of the year.

#### PLANTING INSTRUCTIONS

The best way to see your paper germinate is to moisten it and put it in a container that you can close. So it will not lose moisture and in 5-7 days you will see the first shoots germinate. Transplant carefully to see your seedling mix grow.

#### DESIGN INCLUDED

The customization of the packaging and the selection of these features is included in the price.

## ¿WHAT CAN I CHOOSE??

### LIVE PLANT

#### THE PLANT

Choose from our selection of succulents, cacti and forest honeycombs, all locally produced and controlled

#### THE WINDOW

PLUS8 **Supplement +€**

Choose the option of giving the cactus tube a little window to let it breathe and see how it grows.

! Only applicable to: **PV1**

#### CARE INSTRUCTIONS

Depending on the plant, you will need care. Cactus are very resistant and can live in the tube or pot for years. Water them gently with a syringe or teaspoon of water. Air plants are also very resistant. Spray them every week with tap water. Trees and other plants cannot stay in the container for long. Ideally, you can transplant it into a larger pot in a few days to see it grow with you.

#### DESIGN INCLUDED

Customization of packaging and selection of these features is included in the price.

## THE PROJECTS

### SAVOR

#### JAM ESPIGOLADORS

The Espigoladors Foundation fights food waste by collecting the fruits and vegetables that the farmer discards by its non-statutory form and make excellent jams from the hand of people at risk of exclusion from work.

#### HONEY MELVIDA

Aware of the importance of bees for the human food supply, beekeepers from Melvida (in Collserola, Barcelona) treat their workers in the best possible way, achieving a honey of exceptional quality.

#### TE AROMIK

Aromik is born of the passion of two young people for plants and medicinal remedies. Settled in the Maresme (Barcelona) they create infusions from the cultivation to the selection of the best ingredients.

#### OIL L'OLIVERA

### L'Olivera

The cooperative l'Olivera works following the ancestral traditions of the landscape of Lleida and gives value to its products by treating them with delicacy, embracing diversity and putting into play the different (different) capacities of people at the service of a common project.

#### DESIGN INCLUDED

Customization of packaging and selection of these features is included in the price.

## THE REWARDS

ASOCIACIÓN AMICA

ASHES TO LIFE

APADRINA UN OLIVO

BOSCAT

DIVERSIA  
OIL  
250 ml.

ASH SOAP  
100 g.

OLIVE  
OIL  
250 ml.

HONEY  
80 g.

## THE PROJECTS:

### BOSCAT

The Collserola forests managed from Boscat are pine forests with a very dense undergrowth of holm oaks, oaks and strawberries. Inside the plot there is a farmhouse with an agroforestry project that aims to return to work with water from wells, currently dry. Boscat annually plans and coordinates the implementation of forest work in the territory necessary to actively conserve forests and adapt them to climate change.

### ASOCIACIÓN AMICA

Campus Diversia carries out land stewardship in the field of organic farming and forestry. There are more than 10 hectares of olive trees, 4,4 hectares of vineyard and 7 hectares of aromatic and medicinal plants. On the other hand, almost 250 hectares are of forest area, which we guard in an integral way. As for organic farming we carry out tasks offering opportunities to the entire community of users of the Amica Association.

### ASHES TO LIFE

The urban forest of Mijas (Málaga) involves the accomplishment of some tasks among which stand out:

- Planting of native species.
- Replenishment of trees in case they suffer from any disease.
- Pruning and removal of pruning remains.
- Fertilization of the soil.
- Ecological treatment of pests.
- Irrigation and installation of a system that allows the optimization of water resources.

### APADRINA UN OLIVO

The Association recovers the abandoned olive trees of Oliete, a small town of Teruel has seen its population decline in recent years. Growing the olive tree is not just planting and letting it grow. By caring for them we preserve the environment, promote biodiversity, create jobs for people at risk of exclusion and give life to the people.

# CAN'T YOU FIND HIM?

## ASK

We love special projects. If you want to give sustainability and social impact, but you do not find what you are looking for in our catalog, consult us and we will be happy to think customized solutions for you.

There are more than a thousand entities for which we have worked. With your confidence, we have proven that we stand by our customers to make their experience unbeatable.

We accompany you from the moment of purchase decision to the correction of the smallest detail. Our customers choose us for our innovative, sustainable and original products, but above all, for our friendly treatment and our flexibility to adapt to what they are looking for.
