The logo for iqoniq, featuring the brand name in a lowercase, sans-serif font enclosed within a thin, dark oval border.

WEAR CHANGE

WHO WE ARE

In our bustling world of fashion and promotional industry, where trends come and go, a new brand was created early 2023. This brand is IQONIQ - a name destined to become synonymous with low impact, innovation and personal expression. Its inception was rooted in a profound realisation: the need to transform the textile industry and to prioritise protection of the environment. Since the start, the vision is clear: create a mono-material clothing brand made out of recycled materials to minimise the environmental footprint, with traceability and transparency on impact data by proving it via Digital Product Passports with each model.

THE ORIGINS

As we observed the increasing strain on Earth's resources and the growing urgency to reduce CO₂ emissions, a compelling truth emerged: the textile and fashion industry, with its substantial environmental footprint, needed a transformative approach. IQONIQ was conceived with the aim of producing clothing that minimises the environmental impact while catering to the diverse needs of consumers. The founders recognise that recycling is not just an option but the cornerstone of the mission. By using the highest percentage possible of recycled materials in its products, IQONIQ seeks to turn a pressing challenge into an opportunity for positive change.

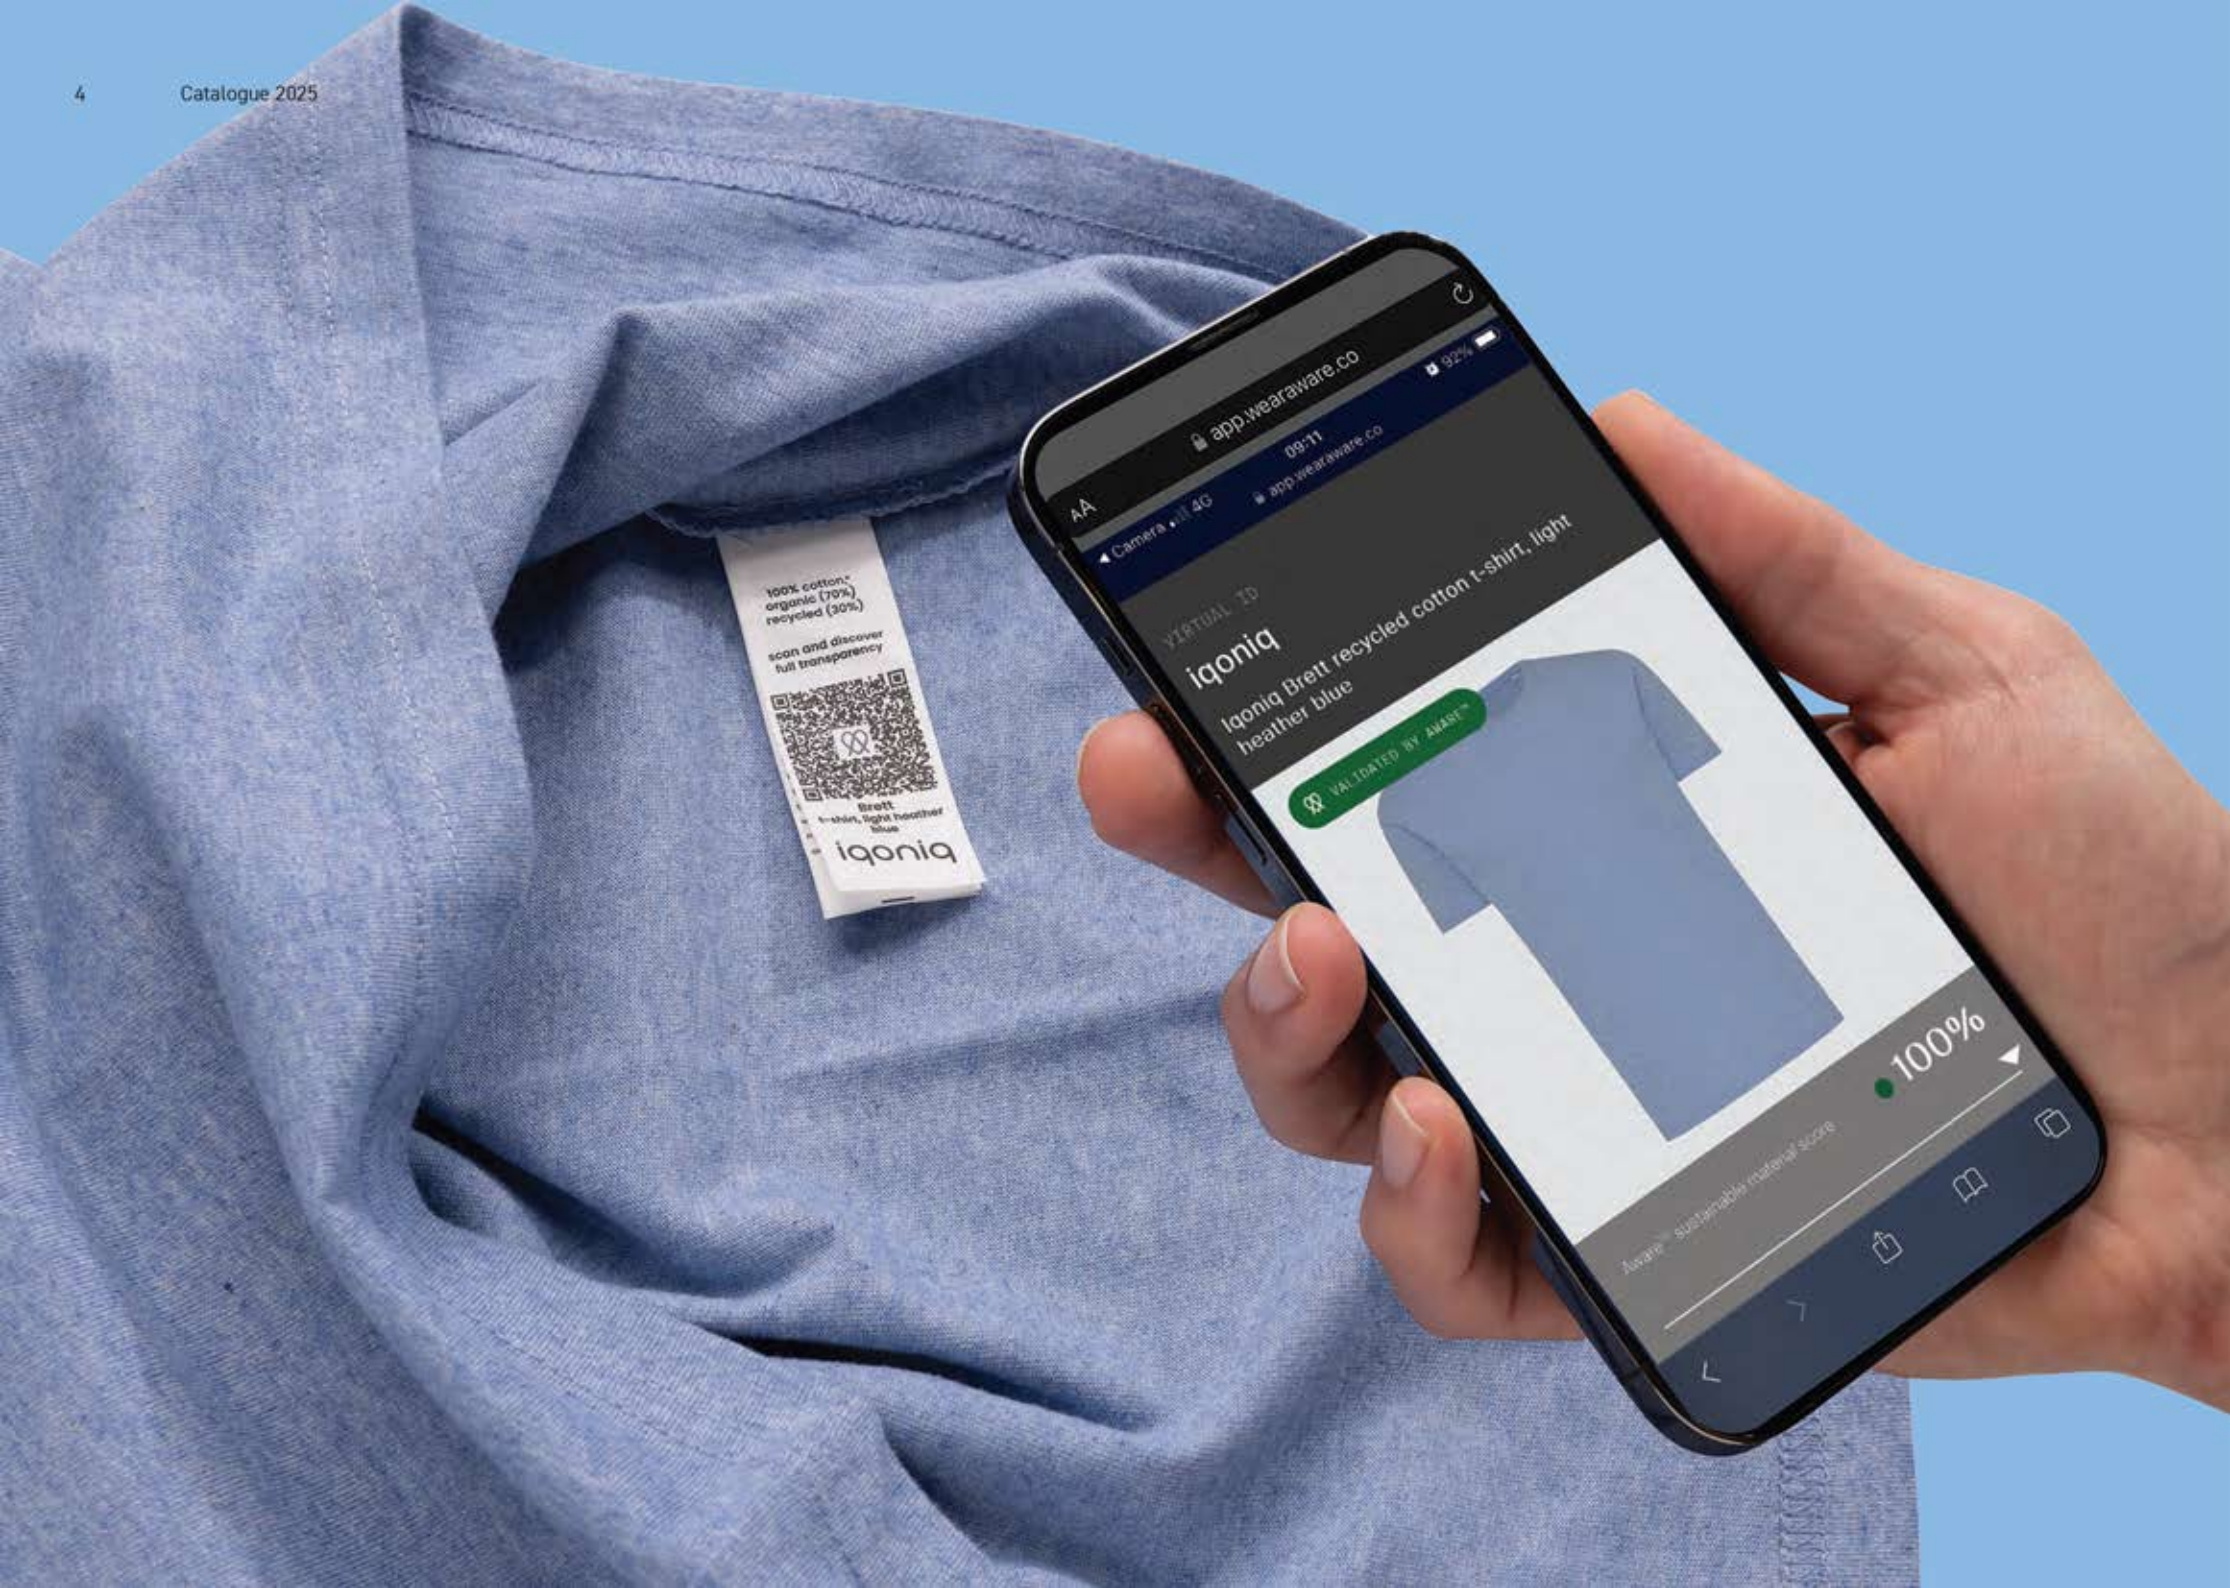

RESHAPING THE WORLD OF PRINTABLE TEXTILE

WEAR CHANGE

The baseline Wear Change reflects a bold commitment to making a real difference in the fashion industry and beyond. It's a call to action, inviting people not only to wear clothes but to wear a mindset, a movement, and a purpose. Wear Change means choosing garments made from recycled materials, opting for durable practices, and choosing a future where fashion is both stylish and responsible.

WWW.WEAR-IQONIQ.COM

TRUSTED TRACEABILITY

100% TRANSPARENT

One of the most innovative aspects of IQONIQ's journey is its commitment to transparency and traceability.

IQONIQ uses the AWARE™ solution, which combines a physical tracer with public block chain technology, ensuring the authenticity of its claims and offering trusted traceability.

Every product can be traced, thanks to a physical tracer that tracks its journey from the raw material to the finished product.

Iqoniq is transparent in sharing impact and social data; each garment comes with a Digital Product Passport.

Integrating such cutting-edge technology allows consumers to trust that every garment is genuinely made from recycled materials, reinforcing IQONIQ's mission of accountability and environmental stewardship

PICTURE:
How recycled cotton is made

UNLEASH YOUR STYLE WITH RECYCLED, CUSTOMISABLE TEXTILES

Introducing IQONIQ's innovative 2025 collection.

They are designed with purpose and crafted to have a "lower" impact or "to minimise impact". Made from recycled monomaterials, a blend of recycled and organic cotton or recycled polyester, this collection redefines sustainability with essential basics in both classical and more trendy fits that are as versatile as they are stylish.

Mono-material refers to fabrics made from a single type of fibre, such as 100% cotton or 100% polyester, rather than blending different fibre compositions.

This approach simplifies recycling at the end of its life cycle since sorting and separating mixed materials is still a significant barrier to efficient recycling.

Each piece is named after a breathtaking world's natural sites—Manuel, Sierra, Teide, Kakadu, Yala, Koli, Yosemite, Zion, Jasper, Torres, Rila, and Trivor—inviting you to explore the wonders of nature. These names aren't just labels—they're symbols of our commitment to conserving the planet.

With IQONIQ, you're not just wearing clothes; you're making a statement. A statement that says you're ready to transform the textile industry by choosing high-quality fashion made from used materials. It's time to wear your change.

RECYCLING

THE ONLY PATH FORWARD

INFOGRAPHIC:

How recycled polyester is made

The choice of recycled materials, such as recycled cotton and polyester, is not just an option—it's the only choice we can make if we are serious about transforming the textile industry and protecting our planet. By prioritising the use of recycled resources, we break free from the harmful cycle of exploiting virgin materials and continue towards a virtuous loop of sustainability.

Recycled cotton reduces the strain on agricultural land, water resources and textile waste, while recycling polyester helps tackle the growing issue of plastic waste. Together, they represent a powerful opportunity to mitigate the industry's environmental footprint and foster a new standard in eco-conscious production.

Embracing recycled textiles allows us to create products that honour the Earth rather than deplete it, ensuring that future generations inherit a healthier, more sustainable world. The path forward is clear—innovation, responsibility, and recycling must lead the way.

SIZING CHART

CLASSIC FIT

The Classic fit emphasises a nice silhouette, leaving enough space for comfort. It has a straight cut throughout the chest and waist, is nicely fitted across the shoulders and has shorter sleeves.

In short: straight cut, fitted shoulders, shorter sleeves.

MEDIUM FIT

The Medium fit hugs slightly to the body without being too tight or too baggy. It is slightly looser at chest and waist, and has comfortably fitted shoulders and sleeves.

In short: regular body fit, comfortably fitted shoulders and sleeves.

MODERN FIT

The Modern fit complies with today's lifestyle, is more generous at chest and body without being too boxy. It is looser at chest, has larger shoulders and longer sleeves.

In short: looser fit, larger shoulders and longer sleeves.

BOXY FIT

The Boxy fit is your comfy fit, with larger and square body shape, slightly shorter body length, dropped shoulders and longer sleeves.

In short: larger square fit, shorter body length, dropped shoulders and longer sleeves.

RELAXED FIT

The Relaxed fit is a looser fit without being oversized. It has longer body and wider sleeve, giving a baggy look.

In short: loose baggy fit, longer body length, dropped shoulders and longer sleeves.

A NATURAL ODE TO THE PLANET

Introducing IQONIQ's Undyed Collection, a range of stunning, naturally heathered colours made from a blend of cotton waste in its existing colour and virgin organic cotton. By using this innovative mix, we create beautiful tones with an even lower impact than our traditional production methods, taking sustainability to the next level.

This collection is a true ode to the planet, featuring a rich palette of earthy, green, blue, brown and grey tones that reflect the natural world. Without the need for additional dyes, each shade is born from the inherent beauty of recycled and raw materials, minimising environmental impact while embracing the essence of nature.

These undyed colours are not just a design choice—they are a statement. They represent a shift toward more thoughtful fashion, where the use of fewer resources and the celebration of natural beauty come together. By choosing IQONIQ's Undyed Collection, you're not just wearing a colour, you're wearing a commitment to the planet.

PRINTING OPTIONS

WE STAND TO OUR VALUES AND FOLLOW OUR LOW IMPACT STORY TILL THE VERY END CUSTOMER

In house we offer the following low impact decoration techniques. Those techniques are OEKO-TEX and GOTS compliant, made with almost a fully circular water use. In addition, we also offer for some styles Embroidery 3D, Engraved PU leather badge, Printed patch with embroidery outline, as well as screenprint.

DIGITAL TRANSFER:

DTF is the most suitable decoration that allows any type of picture to be printed on a foil and heat pressed on to the garment.

SCREEN TRANSFER:

ST is a similar technique to DTF where the image is transferred on the foil using screen printing.

EMBROIDERY:

Remains the most noble decoration technique that can enhance your product to become a real piece of art!

Disclaimer / Note

Recycled cotton material might offer some challenges with colour transfer printing, other than regular cotton. For the best print results, please consult our printing guidelines

TOTE 330 GSM

P762.54* | IMPACT AWARE™ RECYCLED COTTON TOTE 330 GSM

SPECIFICATIONS

↗ 330 GSM

↗ 9.8 L

↗ RECYCLED COTTON

FOOTPRINT

CO₂-EMISSION

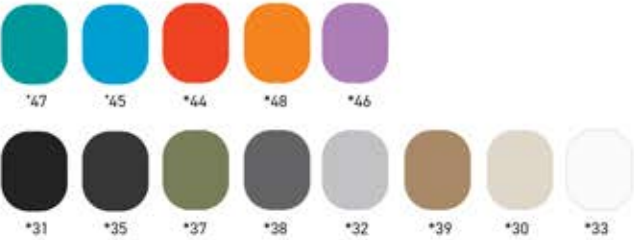

1.96 kg CO₂-Eq

Based on reference: P762.541

The calculations are based on OnTrack carbon footprint calculation tool.

TOTE 285 GSM P762.93* | P762.94*
IMPACT AWARE™ 285 GSM RCANVAS TOTE BAG

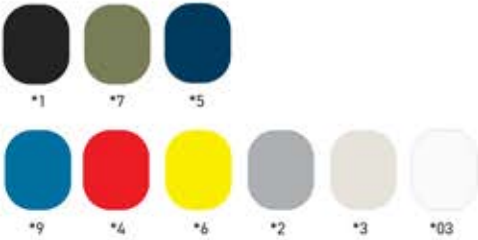

SPECIFICATIONS

↗ 285 GSM ↗ 12.5 L | 11 L ↗ RECYCLED CANVAS

FOOTPRINT

CO₂-EMISSION 1.09 kg CO₂-Eq

Based on reference: P762.931
The calculations are based on OnTrack carbon footprint calculation tool.

COTTON TOTE 145 GSM P762.62*
IMPACT AWARE™ RECYCLED COTTON TOTE 145G

SPECIFICATIONS

↗ 145 GSM ↗ 11 L ↗ RECYCLED COTTON

FOOTPRINT

CO₂-EMISSION 0.71 kg CO₂-Eq

Based on reference: P762.621
The calculations are based on OnTrack carbon footprint calculation tool.

COTTON TOTE 145 GSM P762.64*
IMPACT AWARE™ RECYCLED COTTON TOTE W/BOTTOM 145G

SPECIFICATIONS

↗ 145 GSM ↗ 12 L ↗ RECYCLED COTTON

FOOTPRINT

CO₂-EMISSION 0.91 kg CO₂-Eq

Based on reference: P762.641
The calculations are based on OnTrack carbon footprint calculation tool.

KEZAR

P707.17* | AWARE™ 500 GSM RECYCLED CANVAS DELUXE WEEKEND BAG

SPECIFICATIONS

➤ 500 GSM ➤ 40 L ➤ RECYCLED CANVAS

FOOTPRINT

CO₂-EMISSION 6.37 kg CO₂-Eq

Based on reference: P707.171
The calculations are based on OnTrack carbon footprint calculation tool.

DUFFEL

P707.19* | IMPACT AWARE™ 285GSM RCANVAS DUFFEL BAG UNDYED

SPECIFICATIONS

➤ 285 GSM ➤ 40 L ➤ RECYCLED CANVAS

FOOTPRINT

CO₂-EMISSION 3.68 kg CO₂-Eq

Based on reference: P707.191
The calculations are based on OnTrack carbon footprint calculation tool.

DRAWSTRING BACKPACK

P762.63*

IMPACT AWARE™ RECYCLED COTTON DRAWSTRING BACKPACK 145G

SPECIFICATIONS

➤ 145 GSM ➤ 9.5 L ➤ RECYCLED COTTON

FOOTPRINT

CO₂-EMISSION 0.73 kg CO₂-Eq

Based on reference: P762.631
The calculations are based on OnTrack carbon footprint calculation tool.

LALUKA

P732.11*

AWARE™ RECYCLED COTTON 15.4 INCH LAPTOP BAG

SPECIFICATIONS

➤ 340 GSM ➤ 6.65 L ➤ RECYCLED COTTON

FOOTPRINT

CO₂-EMISSION 3.95 kg CO₂-Eq

Based on reference: P732.111
The calculations are based on OnTrack carbon footprint calculation tool.

TOILETRY BAG P820.78 *

IMPACT AWARE™ 285 GSM RCANVAS TOILETRY BAG UNDYED

SPECIFICATIONS

➤ 285 GSM ➤ 4.5 L ➤ RECYCLED CANVAS

FOOTPRINT

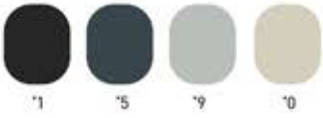

CO₂-EMISSION 0.69 kg CO₂-Eq

Based on reference: P820.781
The calculations are based on OnTrack carbon footprint calculation tool.

PENCIL CASE P820.77 *

IMPACT AWARE™ 285 GSM RCANVAS PENCIL CASE UNDYED

SPECIFICATIONS

➤ 285 GSM ➤ 1.5 L ➤ RECYCLED CANVAS

FOOTPRINT

CO₂-EMISSION 0.30 kg CO₂-Eq

Based on reference: P820.771
The calculations are based on OnTrack carbon footprint calculation tool.

ELLES

P453.00*

AWARE™ POLYLANA® SCARF

SPECIFICATIONS

➤ 180 X 30CM ➤ ACRYLIC

FOOTPRINT

CO₂-EMISSION 0.91 kg CO₂-Eq

Based on reference: P453.001
The calculations are based on OnTrack carbon footprint calculation tool.

KNITTED SCARF

P453.44*

IMPACT AWARE™ POLYLANA® KNITTED SCARF

SPECIFICATIONS

➤ 180 X 25CM ➤ ACRYLIC

FOOTPRINT

CO₂-EMISSION 1.27 kg CO₂-Eq

Based on reference: P453.441
The calculations are based on OnTrack carbon footprint calculation tool.

5 PANEL CAP P453.33*

IMPACT 5 PANEL 190GR RCOTTON CAP WITH AWARE™ TRACER

SPECIFICATIONS

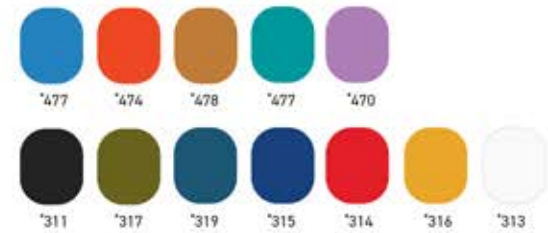

➤ 5 PANELS ➤ VELCRO ➤ RECYCLED COTTON

FOOTPRINT

CO₂-EMISSION 0.54 kg CO₂-Eq

Based on reference: P453.331

The calculations are based on OnTrack carbon footprint calculation tool.

5 PANEL CAP P453.31* | P453.47*

IMPACT 5PANEL 280GR RCOTTON CAP WITH AWARE™ TRACER

SPECIFICATIONS

➤ 5 PANELS ➤ BUCKLE ➤ RECYCLED COTTON

FOOTPRINT

CO₂-EMISSION 0.61 kg CO₂-Eq

Based on reference: P453.311

The calculations are based on OnTrack carbon footprint calculation tool.

6 PANEL CAP P453.25*
IMPACT AWARE™ RPET 6 PANEL SPORTS CAP

SPECIFICATIONS

- 6 PANELS
- BUCKLE
- RECYCLED PET

FOOTPRINT

CO₂-EMISSION 0.43 kg CO₂-Eq

Based on reference: P453.251
The calculations are based on OnTrack carbon footprint calculation tool.

6 PANEL CAP P453.30* | P453.46*
IMPACT 6 PANEL 280GR RCOTTON CAP WITH AWARE™ TRACER

SPECIFICATIONS

- 6 PANELS
- BUCKLE
- RECYCLED COTTON

FOOTPRINT

CO₂-EMISSION 0.61 kg CO₂-Eq

Based on reference: P453.301
The calculations are based on OnTrack carbon footprint calculation tool.

6 PANEL CAP P453.32*
IMPACT 6 PANEL 190GR RCOTTON CAP WITH AWARE™ TRACER

SPECIFICATIONS

- 6 PANELS
- VELCRO
- RECYCLED COTTON

FOOTPRINT

CO₂-EMISSION 0.28 kg CO₂-Eq

Based on reference: P453.321
The calculations are based on OnTrack carbon footprint calculation tool.

KENNEDI P453.3825

PRYOR P453.4919

KENNEDI

P453.38*

AWARE™ POLYLANA® BEANIE WITH LARGE RIB

SPECIFICATIONS

➤ SIZE 20 X Ø 21 CM ➤ ACRYLIC

FOOTPRINT

CO₂-EMISSION 0.5 kg CO₂-Eq

Based on reference: P453.3801
The calculations are based on OnTrack carbon footprint calculation tool.

KNITTED BEANIE

P453.39*

IMPACT AWARE™ POLYLANA® DOUBLE KNITTED BEANIE

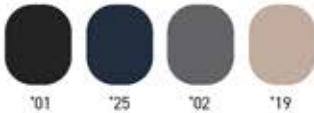

SPECIFICATIONS

➤ SIZE 23 X Ø 21 CM ➤ ACRYLIC

FOOTPRINT

CO₂-EMISSION 0.56 kg CO₂-Eq

Based on reference: P453.391
The calculations are based on OnTrack carbon footprint calculation tool.

PRYOR

P453.49*

AWARE™ POLYLANA® BEANIE WITH CUFF

SPECIFICATIONS

➤ SIZE 20 X Ø 21 CM ➤ ACRYLIC

FOOTPRINT

CO₂-EMISSION 0.39 kg CO₂-Eq

Based on reference: P453.4901
The calculations are based on OnTrack carbon footprint calculation tool.

BEANIE

P453.34* | P453.48*

IMPACT AWARE™ POLYLANA® BEANIE

SPECIFICATIONS

➤ SIZE 21 X Ø 23,5 CM

➤ ACRYLIC

FOOTPRINT

CO₂-EMISSION

0.44 kg CO₂-Eq

Based on reference: P453.341

The calculations are based on OnTrack carbon footprint calculation tool.

CLASSIC BEANIE P453.37*

IMPACT AWARE™ CLASSIC BEANIE WITH POLYLANA®

SPECIFICATIONS

➤ SIZE 21 X Ø 21 CM ➤ ACRYLIC

FOOTPRINT

CO₂-EMISSION 0.28 kg CO₂-Eq

Based on reference: P453.371
The calculations are based on OnTrack carbon footprint calculation tool.

BUCKET HAT P453.08*

IMPACT AWARE™ 285 GSM RCANVAS BUCKET HAT UNDYED

SPECIFICATIONS

➤ SIZE 15 X Ø 37 CM ➤ RECYCLED CANVAS

FOOTPRINT

CO₂-EMISSION 0.74 kg CO₂-Eq

Based on reference: P453.081
The calculations are based on OnTrack carbon footprint calculation tool.
